6. Reflection

Open answers — any thoughtful response counts.

For the teacher

Purpose: the packet version of the Verb Conjugation tool — same 113 verbs, same Latin-American forms, now as paper practice. Timing: about 50 minutes, or one section per day across four days. Tip: teach Section 4 last; students who try to memorize irregulars before the regular patterns struggle more. The shared ser/ir preterite is the detail students most often miss.
