10. Reflection

Open answers — any thoughtful response counts.

For the teacher

Purpose: the first paper practice for the Pronouns tool — all seven families in one packet, so students see how they fit together. Timing: about 45 minutes, or split after exercise 4 (exercises 1–4, then 5–9).

Tip: the most common error is agreement — drill that gustar agrees with the thing liked and possessives agree with the thing owned, not the owner.
