7. Reflection

Open answers — any thoughtful response counts.

For the teacher

Purpose: the packet version of the Ser vs. estar tool — same 100 questions, now as paper practice with the rule named every time. Timing: about 45 minutes, or split across two days (exercises 1–3, then 4–7). Tip: exercise 3 is the heart of it — students who can name the rule stop guessing. The reflection paragraph makes a good exit ticket.
